

**This building is Little Lake Theatre. When you enter your car will go on the driveway to the right by the theater and then turn right to park.**

**Park the car here. There will be a person to direct you which spot to park in. If you need a handicapped spot, they will direct you there.**

**After you park, you will walk into the theater through these doors. If you are early or need a break and would like to sit outside, you are welcome to sit in this outdoor area. Please be careful of cars driving through the parking lot.**

**When you go through the main doors, you will enter this main hallway. Keep walking straight to get pick up your ticket at the box office.**

**This is the box office - - the place where you pick up your ticket for the show. You may see Andrew or Susan there. They will take your name then hand you your ticket.**

**This is the bathroom hallway. The bathrooms are right behind the box office. First is the accessible bathroom, then boys, then girls. The quiet space will also be located in this hallway once the show begins.**

**Once you have your ticket, you go to these main doors to enter the theater and go to your seat. A cast member will be standing there to look at your ticket and show you to your seat.**

**When you enter the theater area, this is what you will see. The set - or furniture pieces on the center stage - will be different. You can see pictures of the set for your play on the website.**

**That is Jared behind the windows of the black booth. He runs the lights and sounds for the show from this booth.**

**In this picture you can also see some of the different types of seats you might have. Your seat might be at a table or a flip down seat.**

**When you sit down at your seat and look up, you will see many different lights hanging from the bars on the ceiling. These lights can be different colors and brightness. The lights are aimed at different parts of the stage so you can see the play better.**

**After the play is over, you leave the main theater doors and make a right into this hallway. The doors at the end open up into the parking lot.**

**This is another building on our property called the barn.**

**This is where the actors practice for the play you just saw. We also store extra furniture and props here. Behind the barn is a lake where people fish and look for ducks.**
